

ALWIN ROY

JUNIOR SYSTEM ENGINEER

alwinroy38@gmail.com | +918619413552 | Kochi, Kerala | [Linkedin Profile](#) | [Github Profile](#)

PROFESSIONAL SUMMARY

BCA graduate with a strong interest in DevOps practices. Skilled in Linux administration, networking fundamentals, and containerization using Docker, with working knowledge of orchestration tools like Kubernetes and version control using Git. Familiar with cloud services on Amazon Web Services including Amazon EC2, S3, and Identity and Access Management. Passionate about automation, cloud technologies, and continuous learning, with a focus on building scalable and reliable systems in collaborative cloud environments.

EXPERIENCE

- Devops Trainee**, Synnefo Solutions 09/2025 – Present
Kochi, Kerala
- Deployed and managed containerized workloads using Docker and Kubernetes (Minikube), including writing and debugging YAML manifests for pod definitions, resource limits, and liveness probes
 - Provisioned and managed AWS cloud resources (EC2 instances, S3 buckets, IAM roles/policies) using AWS Management Console and AWS CLI
 - Implemented CI/CD pipelines using GitHub Actions to automate build and deployment workflows triggered by code pushes
 - Configured Linux (Ubuntu) servers for application hosting, including package management, user administration, and basic networking setup
- Intern**, Acmegrade 01/2025 – 03/2025
Bangalore
- Collaborated with team members to gather and analyze data for process improvement initiatives.
 - Assisted in project management tasks, ensuring timely completion of assignments and adherence to deadlines.
 - Gained hands-on experience in various software tools increasing proficiency and expanding technical skill set.

EDUCATION

- Diploma - DevOps Engineering**, Synnefo Solutions 09/2025 – Present
Kochi,India
- Bachelor in Computer Applications**, JECRC UNIVERSITY 09/2022 – 09/2025
Rajasthan,India

SOFT SKILLS

- Time Management
- Attention to Detail
- Active Listening
- Communication
- Flexible and Adaptable
- Team Management

TECHNICAL SKILLS

- Orchestration: Kubernetes (Minikube)
- Cloud: Amazon Web Services (EC2,S3,IAM,Lambda)
- Containers: Docker
- Version Control: Git, GitHub
- Os: Ubuntu Linux
- Web Servers & Networking: Apache HTTP Server, Nginx, DNS, TCP/IP, SSH Hardening, UFW/iptables

LANGUAGES

- English
- Hindi
- Malayalam

PROJECTS

AWS Static Website Hosting with CloudFront CDN

- Deployed a static portfolio website on **Amazon S3** with static website hosting enabled and configured public read access via IAM bucket policy
- Integrated **Amazon CloudFront CDN** to serve the website globally over **HTTP** with edge caching for low-latency content delivery across multiple regions
- Used **AWS CLI** (aws s3 sync) to automate file deployment from local machine to S3 bucket
- Configured **S3 bucket policy** to control public object access following AWS least-privilege security principles
